[Edit](#)

WHAT I DO - [Edit](#)

I help people get into homes — and I build tools that make the whole process faster and clearer for the LOs and clients around me. Equal parts loan officer and tinkerer. I love creating things and walking people through their next step.

WORDS OF WISDOM - [Edit](#)

Build the thing you wish existed, then give it away. The leverage comes back to you.

WHERE I GREW UP - [Edit](#)

Northwest Illinois

WHAT HOME MEANS TO ME - [Edit](#)

Home is my wife, our kids, and the chaos of teaching them ourselves. It's the reason any of the rest of this matters — and the reason I do what I do for the families I work with.

Thank you for being awesome! I love the VA residual income calculator you developed and have freely shared with all of us. As I mentioned, I could have really used this a couple of weeks ago. I want to show my unbelievable gratitude for the Chrome Productivity Pack Add-ons. Seriously, we have an entire tech team and it took a super high producing LO to get this done for us??? I have no idea where you found the time, but am ecstatic that you did. Add on the fact that you just did not keep this to yourself, but you shared it with the entire company says volumes about the type of selfless person that you are...and don't think I did not catch the part where these add-ons are pinged you so you can work on them and improve them. Again, selfless. You are truly awesome Sir...Thank you!
